## Air Conditioning:

Fans are provided free of charge and air conditioning is available in the bedrooms at a supplement of 7 euros per unit per day. Please let us know if you require air conditioning and we will arrange it for you.

If you are using the air conditioning the recommended setting is 25 degrees. Please only have the units turned on when you are in the bedrooms and need to use them. The room will cool down within five minutes after switching them on. Please do not go out and leave the air conditioning units on as this will exhaust the motor and could cause overheating and damage the unit.

## Household waste

There is a dustbin at the back of the house. The rubbish bins do not get collected. You have to take the rubbish to the bins at the roadside. You will see the bins at the side of the road as you drive around. Could you please empty the bin on a daily basis to avoid pests and smells. Always use the bin liners which we will provide and please don't throw rubbish directly into the bin without it going in a liner. On your day of departure could you please ensure all bins inside the house and the one at the back had been emptied.
